PRE-EXISTING CONDITION LIMITATION

Benefits will not be paid if your disability begins in the first 12 months following the effective date of coverage and your disability is caused by, contributed to by, or the result of a Pre-existing Condition.

Pre-existing Condition means any condition for which you have done, or for which an ordinarily prudent person would ordinarily have done, any of the following at any time during the 3 months just prior to the effective date of coverage, whether or not that condition is diagnosed at all or is misdiagnosed:

- Received medical treatment, advice, consultation, or diagnostic testing; or
- Taken or were prescribed drugs or medicine

EXCLUSIONS AND LIMITATIONS

Mental Illness, Alcoholism or Drug Abuse Limitation

Subject to the applicable law in the state where the policy is delivered or issued for delivery, the lifetime cumulative Maximum Period of Payment for all disabilities due to Mental Illness, alcoholism or drug abuse is 24 months. Only 24 months of benefits will be paid for any combination of such disabilities even if the disabilities:

- Are not continuous; and/or
- Are not related.

We will continue to send you payments beyond the 24 month period if you meet one or both of these conditions:

1. If you are confined to a hospital, health facility or institution at the end of the 24 month period, we will continue to send you payment(s) during your confinement.
If you are still disabled when you are discharged, we will send you payment(s) for a recovery period of up to 90 days.
If you become reconfined at any time during the recovery period and remain confined for at least 14 days in a row, we will send payment(s) during that additional confinement and for one additional recovery period up to 90 more days.
2. In addition to Item 1, if you continue to be disabled after the 24 month period, and subsequently become confined to a hospital, health facility

or institution for at least 14 days in a row, We will send payment(s) during the length of the reconfinement.

We will not make payments beyond the limited pay period as indicated above, or the Maximum Period of Payment, whichever occurs first.

We will not apply the Mental Illness Limitation to a disability due to dementia if it is a result of:

- Stroke;
- Trauma;
- Viral infection; or
- Alzheimer's disease

- Intentionally self-inflicted harm;
- Attempted suicide, regardless of mental capacity;

- Active duty in the military or the National Guard or similar government organizations;
- Active participation in a riot, insurrection or terrorist activity;

DEFINITIONS

Elimination Period means the period of continuous disability you must satisfy before you are eligible to receive benefits under the plan.

Accumulation of Elimination Period means if you return to work while satisfying your elimination period, you may satisfy your elimination period within the accumulation period. The days that you are not disabled will not count toward your elimination period. If you do not satisfy the elimination period within the accumulation period, a new period of disability will begin. The elimination period and the accumulation period begin on the first day of your disability.

Regular Occupation means the occupation you are routinely performing when your disability begins. We will look at your occupation as it is normally performed in the national economy, instead of how the work tasks are performed for a specific employer or at a specific location.

Sickness means illness, disease or disability resulting from complications due to pregnancy. Disability resulting from the sickness must begin while you are covered under the plan.

Deductible Sources of Income means income from other sources as listed in the certificate which you receive or are

eligible to receive while you are disabled. This income will be subtracted from your gross monthly payment.

Definition of Disability

You are considered disabled when we review your claim and determine that, due to your sickness or injury:

- You are unable to perform all the material and substantial duties of your regular occupation; and
- You have a 20% or more loss in your indexed monthly earnings.

After the Regular Occupation Period (if applicable), you are considered disabled when we review your claim and determine that, due to your sickness or injury, you are unable to perform the duties of any gainful occupation for which you are reasonably qualified based on your training, education and experience.

The loss of a professional or an occupational license or certification does not, in itself, constitute disability.

Disability is residual which means that during the elimination period either days of total disability, partial disability or a combination of the two can be counted towards satisfying the elimination period.

Social Security Normal Retirement Age duration (SSNRA)

For a disability which begins before you reach age 60, the maximum period of payment will be until the Social Security Normal Retirement Age (SSNRA) as shown in the following table:

Year of Birth *Social Security Normal Retirement Age
