

OptumRx Vigilant Drug Program

Non-essential drug strategy

Effective January 1, 2021

Thousands of medications are available today with even more entering the market — sometimes at a higher cost without additional value. OptumRx can help ensure that your pharmacy benefit dollars cover only the most clinically appropriate and affordable medications.

Non-essential drug strategy* — Excludes select products that are available in the market but may not be approved by the U.S. Food and Drug Administration (FDA) or are deemed non-essential by the OptumRx Pharmacy & Therapeutics (P&T) Committee. These high-dollar products offer little clinical value versus other well-tested, FDA-approved agents.

*Programs are also available for clients who prefer prior authorization rather than an exclusion strategy.

About OptumRx

OptumRx is a pharmacy care services company helping clients and more than 65 million members achieve better health outcomes and lower overall costs through innovative prescription drug benefit services, including network claims processing, clinical programs, formulary management and specialty pharmacy care. OptumRx is part of Optum®, a leading information and technology-enabled health services business dedicated to making the health system work better for everyone. For more information, visit optum.com/optumrx.

Strengthen your clinical program strategy

To learn more about OptumRx formulary and clinical programs, contact your OptumRx representative or send an email to optumrx@optum.com.

optumrx.com

OptumRx specializes in the delivery, clinical management and affordability of prescription medications and consumer health products. We are an Optum® company — a leading provider of integrated health services. Learn more at optum.com.
